On the advent of the blessed month of Ramadan, Yousif bin Ahmed Al Kuwari, CEO of Qatar Charity, is pleased to extend the heartiest congratulations to the people of Qatar and the Arab and Islamic nations, wishing the holy month to be a season of good deeds, solidarity and compassion.

He urged Muslims to seize this opportunity to bring happiness and pleasure to themselves and needy people across the globe, as extending a helping hand to support those in need gives the charity makers and good doers a feeling of happiness and fills their hearts with tranquility, comfort, and blessing, especially, when they see the smile on the faces of the beneficiaries and the positive difference in their lives made by the donations of benefactors.

Areas of the Giving

Al-Kuwari said the donation can be made through Qatar Charity’s Ramadan campaign “Giving is the secret to happiness” to implement its health, education, water, income-generating, and seasonal projects as well as for building mosques, Quran centers and houses for the poor or to sponsor orphans, poor families and others.

The Ramadan campaign aims to implement projects in 29 countries in addition to Qatar around the world at cost of QR 37mn. We aim to reach out to about two million people.

Campaign’s Main Projects

“Giving is the Secret to Happiness” campaign includes three main projects: Iftar for a Fasting Person, Eid Clothing, and Zakat al-Fitr in addition to social assistance, media programs, and other projects implemented within Qatar.

The estimated cost of Ramadan projects outside Qatar is about QR21mn, targeting more than 1.3 million people around the world. The estimated cost of these projects implemented within Qatar is around QR16mn, aiming to reach out to 630 thousand people.

“Giving is the Secret to Happiness”
Qatar Charity’s Ramadan Campaign
The impact of charity work is not confined to the beneficiary groups such as the poor and the needy, but its impact is extended to benefactors and philanthropists too, as the studies and human experiences confirm that there is a correlation between giving and happiness and the pleasure of giving is superior to the pleasure of receiving.

The humanitarian and development projects alleviate the suffering of the needy and provide them with a better life, as extending a helping hand to support those in need gives the charity makers and good doers a feeling of happiness and fills their hearts with tranquility, comfort, and blessing, especially, when they see the smile on the faces of the beneficiaries and the positive difference in their lives made by the donations of benefactors.

Qatar Charity’s Ramadan campaign “Giving is the secret to happiness” aims at drawing attention to the fact that giving is a significant key to human happiness, especially in the holy month of Ramadan, the season of generosity.
Key Areas of the Campaign

Qatar Charity’ Ramadan campaign focuses on a number of areas that serve development and make a difference in the lives of the poor persons, families and communities such as education, health, water, housing, economic empowerment and sponsorships.

The charitable projects manual of Qatar Charity gives a variety of options to generous donors to select suitable projects or sponsorships that they can fund or support, depending on their types, costs and places of implementation.

Qatar Charity considers benefactors and donors as partners in its important achievements in the areas of social welfare, development and combating poverty across the world.

The manual has different sections such as housing projects, mosques, Quran centers and education projects, which include building and furnishing schools and sponsoring students.

Health projects such as health units and providing chairs to people with special needs, economic empowerment projects, water projects such as surface and artesian wells and pumps, and multi-service projects, each has a different section in the manual.

The manual also has sections for sponsorships such as sponsoring orphans, poor families and people with special needs.

At the end of the manual, there is a list of Qatar Charity’s branches, collection points and donation methods that enable donors to easily make their contributions.

The benefactors can donate to more than one project at the same time such as making a donation to furnish a school and sponsoring a student or dong Sadaqa Jariya (ongoing charity) and building a Quran center at the same time.
